

Dicamba Training -For Producers & Private Applicators

March 14th
12:00 p.m.

Plains Community Building
812 Grand Ave.
Plains, KS

Dicamba herbicides **Engenia**, **FrXapan** and **XtendiMax** have been reclassified as Restricted Use Pesticides. In order to purchase and apply these herbicides, a producer must be certified as a private or 1A commercial pesticide applicator. In addition, anyone planning to apply these herbicides is required to attend dicamba or auxin specific applicator training. It will be responsibility of the applicators to obtain this training before the application of these herbicides.

To Register:

- Call the Meade Extension Office at 620-873-8790
- Call the Seward Extension Office at 620-624-5604
- Please RSVP by March 12th
- Meal will be provided by Plains Equity Exchange, and Equity Exchange

Equity Exchange
