

Herbicide Meeting

October 25th
6:00 pm meal
Meeting to follow
Minneola Civic Connection
130 Main
Minneola, KS

In the past year, we have seen many different weather patterns, market volatility, and weed resistance. That for one reason or another affect decisions that producers make to make their harvest as profitable as possible.

K-State Research and Extension- Clark County is presenting a herbicide meeting to help aid producers in decisions about what herbicide to use and is most cost efficient.

Topics Covered

- Herbicide strategies for wheat
- Herbicide strategies for sorghum
- Results of wheat and sorghum trials

Speaker

Dr. Vipin Kumar

Weed Science Specialist- Western
Kansas Agriculture Research Station

For Complimentary RSVP
